

Mile Slip Town Forest

This 452 acre property was purchased by the town in 2005. Mile Slip splits the property east/west and continues as a Class VI road to Brookline. Snowmobile trail 501 splits the property north/south. Care should be taken while following trails as there are many old logging roads through the forest.

The western boundary is made by Mitchell Brook, and the power lines run along the southern boundary.

Motorized, wheeled vehicles are not permitted on this property per town ordinance. Snowmobiles are permitted, with sufficient snow cover, on designated trails maintained by the Wilton Lyndeboro Winter Wanderers.

No fires, no alcoholic beverages permitted on town land. Please carry out what you carry in

*At this time all trails are marked, however not all trail junctions are marked.
